PROSPECTS FOR NEW POSTOFFICE BUILDING VERY ENCOURAGING.

**ACTION TAKEN BY COUNCIL;
COMMITTEE IS APPOINTED.**

**ALDERMEN TO CONFER WITH
POSTMASTER SMITH AND EN-
DEAVOR TO GET SUFFICIENT
APPROPRIATION.**

The prospects for Daytona having a new postoffice building and free mail delivery took a definite shape at a regular meeting of the city council Monday evening, when, at the request of Postmaster W. C. Smith, President Henry Schmidt appointed a committee to confer with the postmaster on the matter of securing a new government building and consider the correspondence he has had with Senator Fletcher on the subject. The committee appointed consists of Aldermen Klock, Mills and Conrad.

Just what steps will be taken to secure a new government building for this city has not been determined upon, but the intention is to have the council committee and the postmaster work together with the object in view of having an appropriation made by congress for the purpose of erecting a new building here. Efforts will be made to secure the appropriation at the session of congress which begins next Monday.

And when the council met at the meeting Monday evening was the proposal to have a vote taken at the next election on a change in the city charter to insert a provision for a municipal judge in Daytona, the charter change to provide for a salary for the judge and do away with the salary for the mayor.

This suggestion was made in connection with the discussion of the amendment made at the last meeting by Alderman Conrad that he would soon bring in a new ordinance regulating the salaries of the city officers to take the place of the one now in effect. This ordinance change is considered necessary because practically none of the city officers is now receiving the salary called for in the ordinance and the proposal is to make the ordinance fit the salaries being paid.

In connection with this it was suggested that the offices of city attorney and municipal judge might be combined and the ordinance committee was given more time in which to consider the matter of changes and reach a decision as to the advisability of calling a special city election to ratify the proposed charter change. Mayor Greene, who was present, spoke against the proposition of doing away with the salary of the mayor and electing a municipal judge.

Another change in the city ordinances was suggested Mayor Greene, which would call for the city assessor to take office and take charge of the books at the beginning of the new calendar year instead of the first of March as at present. Under the present arrangement the newly elected assessor takes charge of the books when an assessment has been partly completed and the incoming official is held accountable

THE FUNERAL TODAY.**

Mrs. Caroline Cove, wife of S. H. Cove, passed away Wednesday afternoon at 3 o'clock at their home, corner of Ridge and Volusia avenues, after an illness of about twelve weeks duration, although her health had not been good for two years past.

Mrs. Cove, who was 61 years of age, was born at Groton, Conn. She came to Daytona between nineteen and twenty years ago with her husband and son, Worthen A. Cove, who both survive her, and has since resided here with the exception of about two years when they were temporarily located at Nassau, N. P., in the Bahama islands, while Mr. Cove was engaged with the Flagler system.

Mrs. Cove was a member of the Congregational Church and also of Live Oak Chapter No. 1, Order of the Eastern Star. She was a woman of great kindness and pleasant manner and leaves a host of friends who will greatly feel her demise and who extend to the bereaved son and husband the deepest sympathy in their affliction.

Funeral services were held at the residence at 2:30 o'clock this afternoon, Rev. Dr. B. F. Marsh, pastor of the Congregational church, officiating, and the interment was made at Pinewood cemetery.

The weather forecast today predicts below freezing as far south as northern Florida and near freezing in the central part of the State. There will probably be frost tonight in interior southern Florida with a temperature ranging from twenty to twenty-six degrees above zero in North Georgia.

This promises to be record breaking weather for this season of the year, as ordinarily nothing more than light frost occurs previous to the last week in December. Unusually cool weather has prevailed here for the past month or more, including several frosts, one as early as Oct. 29th, which was unprecedented in this section.

MEXICO CITY, Dec. 1.—Massed troops in the capital city of Mexico are now guarding the principal streets and particular precautions were taken today during the ceremonies, which were held in the school of mines building instead of in the chamber of deputies as usual. As a precaution against outbreaks by the revolutionists President Diaz and the ministry are closely guarded by the soldiers. It is reported today that President Diaz will take the field in person to command the government's troops if the revolutionist movement gains in strength.

EL PASO, Tex., Dec. 1.—The latest reports from northern Mexico indicate that the revolutionists will resort to the use of bombs in their war against the Mexican government and President Diaz. The latest reports from northern Mexico indicate that the revolutionists will resort to the use of bombs in their war against the Mexican government and President Diaz.

American bombs have been found under the Methodist school at Colen. The towns of Guadalajara and Chihuahua are reported in the hands of the revolutionists. Troops have been sent to guard Miers, where marauders have cut the wires and raided ranches in that vicinity.

News was received here today of a battle fought Tuesday between the revolutionists and government troops near Padernales, Chihuahua, in which 30 insurgents and 12 regulars were killed.

Passengers arriving from Madera, Chihuahua, today report every town except one along the Mexican Central held by the revolutionists. The passengers say they heard heavy firing in the mountains and saw a number of wounded being carried on litters.

It is reported today that Guerrero has been re-captured by the government troops, but the revolutionists are gathering nearby for another attack.

WASHINGTON, Dec. 1.—A special cabinet session was called by President Taft early this morning, at which was considered the president's forthcoming message to congress.

The president worked until long after midnight on the message last night, was up at it again at an early hour this morning, and had the rough draft ready for the cabinet meeting this morning. The hurry-up call caught several members napping and after the meeting the president began to put on the finishing touches. He plans to have the document ready to send to the printer by Friday night.

By L. C. DEMAREE.

One of Daytona's crowning glories is her incomparable beach. No one who has ever set foot upon its smooth, packed sands; no one who ever pedaled a bicycle over its expanse; no one who ever drove a prancing pair of horses and listened to the popping of their steel shoes upon its asphaltum-like face; no one who ever steered a high-power automobile down the broad stretch of wave-washed and surf-packed sand has realized that it is a world beater, a world wonder. Go stand upon this wide speedway and see the happy souls fit by in joyous mood, and answer whether this is not one of the seven modern wonders.

The Placid, Pellucid Halifax River.

Where think you is water with more picturesque surroundings? Nearly a mile wide, fringed with tropical vegetation, artistic cottages with roomy verandas looking out upon her bosom, gamey food fishes in countless numbers beckoning, as it were, to those with rod and reel; her bosom flecked with duck and covey and snowy-winged sea birds, which sit about as if for the sport of bobbing upon the waves; watch that lubberly old white headed pelican pouch a fat muflet, and that fish hawk struggling upward with his floundering load he snatched from the water.

See the beautiful launches, spick and span, with bumpers and lockers bulging with refreshments, both solid and liquid, ready for a cruise upon the beautiful surface. Take out your field glass and sweep the river from Ormond bridge to Ponce Park light house, then say whether the Halifax isn't a thing of beauty and a joy forever, and one of the modern wonders.

The Enchantingly Picturesque Ridgewood.

Ridgewood avenue is upon the crest of a broad ridge, straight as the crow flies and the wide, spreading branches of the heavy-trunked live oaks extend their giant arms across the magnificent vista, forming an arch, and from these extended arms great festoons of Spanish moss sway as the trade winds from the tropic seas fan them. Looking straight ahead down this white shell street one has the impression of a fairy path with silken draperies, but as you move along and cast an eye first to the right and then to the left you see distinguished cottage homes in the most delightful settings.

See the glistening leaf of the grand magnolia which nature has varnished as no artist's brush ever could; and the cabbage palms with their burdens of showy fruit and swaying palms; see the lovely holly with its exquisite berry; see the climbing vines can riot in the trees; see the cryptogamous forms which gain a foothold on the great oaks and stately palms, and surely you will join in the chorus and say that this is a world wonder for beauty.

Surpassing Beauty of Our Cottage Homes.

No one of Daytona's attractions, perhaps, commands more nearly universal attention and praise than does the artistic cottages. The owners of these charming villas hail from every corner of the country and they bring their own architectural plans and build upon them, and, as the architecture of one section of the country differs from the architecture of another so do our homes differ in outward appearance and structural beauty from one another. There are no monotonous rows of strikingly similar buildings but the eye, as it sweeps by, is treated to a kaleidoscopic change which keeps the mind wondering, "What next?"

It is not only the exterior of many of these homes which rivets attention; within they are models of convenience, and the finishing and furnishing give evidence of the elegance and cultivation of those who worked it all out. Indeed, it is the interior arrangement and artistic furnishing and shading, more than the exterior appearance that gives a surpassing charm to Daytona homes. This feature justly merits prominence as another wonder.

Streets and Pavements the Most and Best.

Why the Architect of the Universe chose to give Daytona the most admirable, the most picturesque natural setting of all the cities of the South is not revealed, but that such is a

fact must be apparent to the most superficial observer. With such lavish wealth of natural beauty it became an easy thing for the hand of man to give the finishing touches which have wrought out the colors and outlines of the big picture.

Man did all this in the laying out of the streets with their wide margins of parkage. The entire city becomes a great park, with driveways intersecting, miles upon miles of driveways so good as to attract motorists from all over the continent.

And as for the pavements, pavements that look and act like granite—where else between the eastern and western seas are so many miles in proportion to inhabitants? The pavement question stands with the street as one of the chief drawing cards. Till some unheard of place reports more and better, Daytona chews down the gauntlet to the world.

Squirrels, Flowers, Birds and Fruit.
Whatever one's shortcomings and however indifferent or even callous one may be to many things, the mere mention of "flowers and squirrels, birds and fruits" will send a thrill that is reflected in distended pupils and prickled ears.

For every visitor with a spare goober there is a bunny ready to come and accept your gift. He will sit bolt upright and know into the meat, casting furtive, saucy glances at you meanwhile.

Flowers. Usually fresh and blooming the year 'round, you are reminded of Goldsmith's couplet where smiling spring its earliest visit paid and summer's lingering blossoms are delayed.

In one yard roses of variegated hues predominate; another household has a penchant for the poinsettia and the premises are aflame; another is hidden in a jungle of tall cane. Variety is the spice of life and here is where you find it.

The birds flit in, and with their joyous notes help to give fullness and symmetry to the picture.

As for fruits, choice citrus fruits, Daytona yields the palm to none for quality and quantity per acre. There are scores of citrus groves in proximity to the city, branches bending to the earth with their burdens of luscious golden globes, which for beauty, proficacy and all desirable qualities would truly astonish you.

The Fastest Autos and The Finest Out.

The seventh world wonder, do you ask? Come, whether from Missouri or from Maine, from Kalamazoo or Timbucto, and you will be "shown." Here is where the world's record for speed is broken with every recurring season. Autos, the biggest, the fastest, and the finest are on daily parade and the big show is as free as the pure artesian water from the thousands of flowing wells. It is a continuous show with a constantly shifting scene.

Everything goes, from a 2-horse power up to a 200-horse power, and all degrees of speed from a canter to a two-mile-a-minute clip. You will probably catch the spirit, when you do the roads and the beach are yours. The Florida sunshine is free, the balmy ocean breezes are free, the birds and squirrels and flowers are free, the sparkling fountain water is free and you will have to go down into your wallet only for coin for auto, and bed and board.

This is no fanciful picture; it's all here. It is drawing other thousands and holding them entranced, it will charm and hold you. Come and see.

SEVERAL CASES IN THE LOCAL COURTS.

Joseph Mims, colored, arrested Monday for vagrancy by Marshal Gore, was discharged Tuesday morning by Mayor Greene, who held that Mims was not a vagrant in the true sense, being a regular resident of Midway, who worked when he could.

Tuesday morning Deputy Sheriff Gore brought before Justice H. T. Titus, Sparkman Jordan, of Blake, charged with breaking and entering. Owing to lack of evidence the defendant was discharged by Justice Titus.

Tuesday afternoon Fred Ford, colored, of Midway, was haled before Justice Titus, by Deputy Gore, for threatening the life of his spouse. He was put under a peace bond of \$250.

PANAMA CANAL READY FOR NAVIGATION IN THREE YEARS

PRESIDENT TAFT'S recent excursion to the Panama zone pleased him in more ways than the announcement of Lieutenant Colonel George Goethals, chief engineer in charge, that the big canal would be completed and ready for navigation in December, 1913.

But the official date of the opening remains Jan. 1, 1915. Lieutenant Colonel Goethals desiring one year in which to train the canal tenders and get the machinery working smoothly. Ships in the meantime will have the privilege of the canal, but at their own risk of delays incident to inexperienced operation.

It was also announced by Lieutenant Colonel Goethals that the report that President Taft's visit was the forerunner of a request for another \$100-

the removal of more than a million cubic yards of material.

Three bad breaks occurred, one at the town of Culebra covering an area of more than ten acres and requiring a removal of more than 1,500,000 cubic yards of dirt and stone. The second largest break covered an area of more than eleven acres and required the removal of more than 300,000 cubic yards, while the third break aggregated about 40,000 cubic yards.

The total amount of material removed from slides and breaks in the central division of the canal during the year was more than 2,500,000 cubic yards, or about 15 per cent of the amount removed during the year from the Culebra cut, the principal part of the central division.

More than \$6,500,000 cubic yards of material were removed from all parts

CHIHUAHUA. PRESIDENT DIAZ AND ZACATECAS ARE PROMINENT IN THE MEXICAN REVOLUTION.

000,000 from congress was unfounded. The canal will be completed in 1913, he said, and the cost would be within the \$375,000,000 already authorized.

The president was tremendously pleased at the outlook for the early completion of the canal and expressed amazement at the amount of work accomplished since his visit to the isthmus in February, 1909.

The chief engineer reported, however, that it was not all smooth sailing during the last year, slides, breaks and floods hindering the work to a certain extent. He mentioned four slides, covering, respectively, 7.4, 7.3, 4.6 and 1.7 acres and requiring during the year

of the canal during the year, of which almost 15,000,000 were from the Culebra cut and almost 10,000,000 from the Chagres section. About 35,000,000 cubic yards remain to be removed from the Culebra cut before this section of the canal is completed.

There was a steady increase from the beginning of the last fiscal year in the number of employees on the canal zone until on March 30 last they reached a maximum of 38,676, the largest force on record. This includes those employed on the Panama railroad. The total force at the end of the year was 35,578 as compared with 33,493 a year earlier.

GIFT YACHT FOR KAISER.
Cannot Afford to Stay in Fashion on Small Salary.

According to the Danzig press, a movement is on foot in Germany for the presentation to the kaiser of a new steam yacht on the occasion of the silver jubilee of his reign in 1913. The present imperial yacht Hohenzollern is aging fast and, moreover, does not belong to the kaiser. It is the property of the admiralty and is lent to the monarch in his capacity as supreme head of the navy. It is an open secret that the kaiser feels the need for his frequent sea voyages of a more modern and more powerful type than the Hohenzollern, which no longer cuts a good figure beside those of other monarchs or the magnificent vessels in which American patrons of ocean sport cross to attend the yacht meetings at Kiel and Cowes.

Like his subjects, the kaiser feels the pinch of high prices and the burden of his numerous offspring, who are now growing up and demanding settlements of their own. Consequently in spite of the increase recently of about half a million dollars in his civil list he cannot afford to buy a new yacht, while, on the other hand, the admiralty, which wants all its money for warships, cannot spare anything for ornamental craft.

PARIS HAS VOCAL LIBRARY.
Graphophone Records of Orators and Singers Kept For Posterity.

A vocal library is the latest idea in France. It is being installed in the Bibliothèque Nationale and consists of a collection of graphophone records of words spoken or sung by great authors, orators, singers and actors. The library will be equipped with abundant instruments for the transmission of recorded sounds to the ears of visitors.

The new department in the Bibliothèque Nationale will be called "the museum of speech." Its organizers purpose especially to enrich it with the important literary works of the present period, recited or read by the authors themselves into a phonograph.

This strikes one as beyond question the most charming feature of the project. What wouldn't certain enthusiasts give today if they could hear passages of Racine, Moliere or Shakespeare delivered in the identical tones of those immortal writers?

"A satisfaction equally great," said a leading French litterateur this week, "perhaps is reserved for our children's children."

"Yes," remarked Jean Cocteau, "and how much more clearly might have been preserved what are known as the Moliere tradition and the Shakespeare tradition of acting if phonographic records of their stage performance now could be found in our libraries. In an educational sense I don't think the value to future generations of phonographic libraries of this character can be exaggerated."

AN ELECTRIC CANCELLING MACHINE INSTALLED.

DAYTONA POSTOFFICE NOW EQUIPPED WITH LATEST MODEL ELECTRIC CANCELLING MACHINE WITH SPEED CAPACITY OF FIFTY LETTERS PER MINUTE.

An electric cancelling machine with a capacity of 550 letters per minute, the horse power now used, installed at the Daytona post office last Saturday.

Since, Postmaster W. C. Souda requisition for a new cancelling machine for the Daytona post office the department last Saturday installed for him one of the latest electric machines, made by American Postal Machine Co., of Boston, Mass. It was put in by R. H. of Milford, Mass., and replaced old hand machine, being a feature in this respect, as they applied only to the larger of mail and its installation in an office of the class is something of a feat.

The machine works with marvelous speed and accuracy, all that is necessary being to face the cards and hopes and feed them into the machine which cancels and delivers in a stacked pile, no variation in size or shape effecting the efficiency of the work.

The Daytona office does an immensely increased business during winter months and this time and labor saving addition to the equipment will be appreciated by both patrons and employees of the office.

TAYLOR ASKS DAMAGES AS RESULT OF ARREST.

ST. AUGUSTINE, Fla., Dec. 1—Suit has been filed in the circuit court here by A. M. Taylor, through his attorneys, E. N. Calhoun and Hartridge & McDonald, in an action ex delicto for \$30,000 damages against Dr. S. G. Worley.

This is a civil action for damages and grows out of the recent prosecution of A. M. Taylor, former manager of the Jefferson theater, and which the prosecution was nolle prossed by the State's attorney at the recent term of the circuit court. Dr. Worley is president of the Theater and Realty Company and as both he and Mr. Taylor are among the city's most prominent citizens much general interest centers in the suit.

DR. AND MRS. LELAND GIVE THANKSGIVING PARTY.

Dr. and Mrs. S. P. Leland gave a Thanksgiving party in their spacious house and grounds in Seabreeze. Covers were laid for fourteen persons, with a handsome display of silver and china. Edmondson, Corresponding Secretary, and Mrs. Abercrombie, Superintendent of R. R. work. The other superintendents remain the same as last year.

MRS. MARTHA ROBINSON

DIES IN BOSTON, MASS.

Word has been received by friends here of the death in Boston, Mass., Thursday of last week, of Mrs. Martha R. Robinson. The interment was at Portland, Maine.

Mrs. Robinson was with her son-in-law and daughter, Rev. and Mrs. W. P. Merrill, when her death occurred. She was an early resident of Daytona, a charter member of the Palmetto Club and had many friends in this city and vicinity.

SOME WORK NEEDED ON

THE ST. AUGUSTINE ROAD.

Members of a hunting party recently returned from the head of the river say that there are some badly rutted places in the St. Augustine road, between Bulow creek and the old King's road, that could be repaired at very little expense, if attended to now, by filling these worn places with shell. These holes are particularly hard upon automobiles on this section of road, owing to the fact that it is very narrow and there is little or no chance to avoid them by turning out. It is suggested that the authorities look over this piece of road with the view of putting it in better condition for the many automobiles now traversing this course from Jacksonville to Daytona and other points.

ORDER OF EASTERN STAR MEMORIAL SERVICE.

ANNUAL MEMORIAL SERVICE HELD SUNDAY AFTERNOON BY LIVE OAK CHAPTER NO. 1, IN MASONIC HALL — ADDRESS BY DR. S. P. LELAND.

A beautiful and impressive memorial service was held by Live Oak Chapter, No. 1, Order of the Eastern Star, in Masonic Hall Sunday afternoon.

The service was opened with prayer by Dr. S. P. Leland, of Seabreeze, followed by the singing of "Rock of Ages," by the assembled members of the order.

Dr. Leland then made a short but very able and impressive address, after which "The Tie That Binds" was sung in chorus, followed by the reading of Thanatopsis by G. B. Seaman.

A beautiful feature of the service was the breaking of the golden chain by five of the Star sisters, closely followed by a vocal solo, "Thy Will Be Done," by Mrs. W. H. Heath. The service was completed by the singing of the Doxology.

CALLED NORTH BY DEATH OF BROTHER-IN-LAW.

Mrs. E. D. Langworthy left Saturday afternoon for Cleveland, Ohio, called to that city by the death of her sister's husband, Judge Robert W. Taylor. Mrs. Langworthy received two telegrams Friday night, the first announcing the serious illness of the judge and the second conveying the intelligence of his death.

Judge Taylor was a prominent and well beloved citizen of the Buckeye State, holding the office of judge of the United States Circuit Court and his death is greatly felt throughout that state. He was stricken with apoplexy at about eight o'clock Friday night and breathed his last at two o'clock the following morning.

Judge Taylor is well known in Daytona and has many friends here having spent several seasons in the city, his last visit being two winters ago, when he was here for a short time.

for mistakes made by the outgoing officials. If the proper change is made in the ordinance the new assessor will take charge of the office after one year's work has been completed and will start out with a new set of books to be finished before he retires from the office.

The monthly report of Marshal Gore was presented, showing the work done by the city officer during the month.

A communication was read from County Commissioner Wilkinson complaining of the condition of the road between this city and Port Orange and suggesting that the city should pay for having same repaired. A vote of the council instructed the street committee to confer with the county commissioners on the matter.

F. W. Pope, representing Mrs. Tyler of the Tyler-Phelps Gift Shop company, appeared before the council to enter an objection to the changes recently made in the front of the Seaman building on Beach street by P. Ladas as not being within the city ordinance. The building committee was instructed to investigate the matter and if it is found that the changes made have proven a violation of any city ordinance to order the alterations torn out.

A special meeting of the council was ordered for Wednesday evening to consider the clearance of tax receipts.

Alderman Mills said complaint had been made to him that the city dog pound is damp, unhealthy and uncomfortable for canines confined there and that residents in the neighborhood complain that the animals create a disturbance during the night because of this fact. No action on the matter was taken by the council.

Alderman Smith presented a request from citizens that a street light should be placed at the corner of Daytona street and Fairview avenue, but no action was taken by the council.

Mayor Greene was instructed to appoint William Cowan a special policeman, beginning Dec. 1 and a salary of \$20 per month was voted by the council.

The TERRORS of SWEEPING DAY
Full of Meaning to Housewives

That was many years ago, when the primitive corn broom was the only device woman had to clean her carpets and rugs. The BISSELL Sweeper has changed all this, making sweeping day a pleasant anticipation instead of a day to be dreaded. Sweeping with a corn broom is indeed a self-imposed drudgery. Running so easily that a child can operate it, the BISSELL glides over your carpets and rugs, lifting out of the nap all the fine dust and grit that is never gotten by the corn broom, confining same within the pans, instead of scattering it over the furniture, draperies, etc. Once you purchase a

The lobby is being tinted by the orts who are here from New rk, especially for the work of ing out the richness of the or- mental plaster and the spacious- ess of the largest hotel lobby south the Mason and Dixie line. The etures in the lobby, which have been painted by Mr. Fluhart for the building, and those that were saved from the old hotel and are being re- tincted by him, will be hung next week.

This week marks the commence- ment of the furnishing of the house by the laying of the carpets on the first and second sleeping floors. W. M. Loftus, of the firm of Barker Brothers, of Los Angeles, who are furnishing the Clarendon as well as the hotel U. S. Grant, at San Diego, and the Arlington, at Santa Barbara, Cal., is here superintending the installation of the furniture, most of which is now stored in the build- ing.

The third, fourth and fifth floors are now being hung with the win- dows and doors, woodwork painting for the last time and should be ready

for the carpets and furniture by the end of next week. The passenger el- evators will be in operation this week, greatly facilitating the instal- lation of the furniture in the build- ing. The baths in the build- ing, which include those in the Turkish room in the basement and those for the salt water, are in place and connected as far as the painting will permit, on the third and fourth floors.

As fast as the workmen can be taken from the main building they are being put to work on the roof, which Mr. Potter is having made into one of the finest of roof gar- dens, a feature that has been added since the building was completed on account of the view from this height.

The middle of December will see the hotel ready for the work of cleaning up, which is quite a job in itself, but will be greatly shortened by the modern appliances, such as the Vacuum cleaning system to ev- ery room and the marbleoid floors. This work should be finished by the 20th of the month and give the man- agement a chance to get acquainted with the building previous to the opening.

With all the work that has been done inside, the outside has been made to present a pleasing appear- ance of growing grass and built up flower beds by the landscape archi- tect that has been brought here from Pasadena, Cal., where he was in charge of the Huntington estates.

Taken all in all, the hotel at this date leaves little room for doubt in the minds of skeptics as to its ability to open the beginning of the year and is receiving the commendation of hotel men and builders for the condition it is now in, a month ahead of time, as a hotel that will open as a finished building.

SMALL CHILD STRAYED AWAY LAST TUESDAY.

Lillian Vandergrift, the four year old step daughter of H. M. Hoehle, who resides with his family in the Troy cottage, on West Orange av- enue, was lost for a time Tuesday afternoon, until found and returned to her home by J. R. Merritt, chief lineman of the telephone company.

The little girl volunteered to do an errand at one of the stores, but on reaching Ridgewood avenue lost her sense of direction and traveled south upon that street to the neigh- borhood of the Snider bungalows, where she was found by Mr. Merritt.

The child was crying, having re- alized that she was lost. She told Mr. Merritt that she lived at the Troy House and he first carried her to the hotel of that name. A little later they met her mother and others out searching for her.

Count Tolstoy's Wanderings Attract Attention of Entire World

The critics of Count Tolstoy have a real opportunity to heap abuse on the head of the venerable Russian author. His move of going forth from his home and family with but a few dollars in his pocket to spend his last days in retirement has caused an outburst of protest against the count. Many conflicting stories have been circulated as to why he left his home. One story has it that he could not agree with his wife over the copyrighting of his writings; another that he wanted to lead a holy life until he died. In the meantime he has been stricken with illness, and the entire world has been watching his every move.

Mrs. Dwight R. Stillman's friends in this city and vicinity will be pleased to learn that she is in very much improved health and has been able to discard her crutches. She will not come to Daytona this winter, however.

ATTENDANCE AT DRILL TO BE ENFORCED.

LEGAL MEASURES RESORTED TO
TO COMPEL MEMBERS OF CO.
K TO ATTEND DRILL — NEW
UNIFORMS FOR COMPANY.

A warrant was issued through Deputy Sheriff Gore Tuesday for Chester Simms, a private of Co. K, F. N. G., for disobedience of orders. Private Simms having refused to obey a summons to attend drill the previous Tuesday night, First Lieutenant B. B. Baggett presided as summary court officer.

The defendant plead guilty as charged, and was given a fine of \$1 and costs.

This case is the outcome of frequent absence from drill by members of the company, which Captain Cowan has borne with great patience, not wishing to resort to legal measures, but finally felt compelled to take steps in this direction.

Captain Cowan sometime since made requisition for new uniforms for the company and received Tuesday a full consignment of olive drab uniforms together with copies of the manual of arms to be issued to each member of the company.

Every few years; they
now change every month.

A Woman's
Appearance
Constantly
Changing.

American
Woman
The Most
Overdressed.

By Dr. EMIL REICH, Author and Lecturer, of Hungary.

WHILE formerly fashion changed only second or third year, now it is CHANGING EVERY MONTH. Every particle of female dress is altered in size, form, color or rhythm.

IT IS NO AN FEAT TO RECOGNIZE ONE OR THE OTHER ONE'S OLD LAW FRIENDS AFTER AN ABSENCE OF THREE MONTHS.

If previous to that time she looked like a Indian bird, full of gaudy color, ribbons and feathers, now she makes desperate effort to resemble a tiny linnet.

The traveled person cannot notice that the women of different nations strike up an ever different attitude to dress. THE AMERICAN WOMAN IS OVERDRESSED. The real Parisienne is neither over nor under dressed. The German woman is too frequently so badly dressed as to do her position harm.

In Vienna the young woman dress well. At Budapest they have something of the Parisienne and much of the Viennese. And so it varies from one country to another.

IN FEMALE DRESS IS IN THE WHOLE WOMAN.

When one has seen a woman boudoir and one or two toilets of hers one is able to RECONSTRUCT THE REST OF HER CHARACTER with fair certainty, and when one watches her carrying and showing off her dress on herself one knows everything.

The Greeks, the wisest of nations, PASSED PUBLIC LAWS ON FEMALE TOILET, and their most serious sages, like Plato and Aristotle, studied and wrote on the question as one part of politics.

AND SO IT IS. DRESS IS NOT ONLY A WOMAN'S GRACE, BUT A WOMAN'S HONOR AND SOCIAL STATUS. IT IS ONLY AS IT OUGHT TO BE THAT THEY MUST A DEEP INTEREST IN IT.

Every winter visitor to Daytona will now have the privilege, and are expected to avail themselves of this, of registering their name, home address and place where stopping in this city, this new feature having been established and the book opened for the first time today in the Hankins drug store at the corner of Volusia avenue and Beach street.

This is a popular feature in nearly all resort towns and serves the purpose of keeping all persons posted on the whereabouts of friends who may be stopping in the city or may have been here and gone away. The registering book has been placed within easy access for all persons and all visitors may avail themselves of registering their present and permanent addresses.

MILLION SEALS A DAY
PRINTED BY RED CROSS

WASHINGTON, Dec. 1—Announcement comes from the headquarters of the American National Red Cross that Christmas seals are being printed at the rate of a million a day and that already over 60,000,000 have been given out to agents in all parts of the United States. The demand for these holiday seals is greater this year than ever before.

At the same time the Red Cross issues a warning calling attention off all users of Christmas Seals to the ruling of the Postoffice Department that these stickers must be placed on the backs of letters and packages. To avoid the possibility of the misuse of holiday seals, warning cards are being posted in every booth where Red Cross Seals are sold, telling that the stickers are not good for postage and must be used only as seals.

Already seven million seals have been sold to large manufacturing concerns and other business houses in all parts of the United States, and orders are coming in hourly. The outlook for selling 100,000,000 seals and thereby making good the slogan of the campaign, "A Million for Tuberculosis," is very bright.

IN HIS AUTO
TO DAYTONA.

LONG TRIP WITH HIS CAR;
COL. A. P. SOLLIDAY HERE.

DRIVES HIS AUTOMOBILE FROM
WATERTOWN, WIS., TO DAY-
TONA IN LESS THAN TWO
WEEKS.

Driving his 34 horse-power Rambler car about 1,500 miles in practically twelve days running time, Col. A. Solliday, of Watertown, Wis., arrived in Daytona last Saturday and will remain as a guest at the Despland during the winter.

Col. Solliday left his home city Nov. 1 and arrived in Jacksonville Nov. 18, having stopped at several cities for rest and sight-seeing on the way. He remained a week in Jacksonville before coming on to Daytona, and says he found the roads between Jacksonville and Daytona very good in comparison with some of the roads over which he traveled.

He was accompanied to Jacksonville by a young man, but Col. Solliday drove the car all the way through. Throughout the whole trip the car behaved beautifully and no accidents marred the pleasure of the long ride, the only unpleasant feature being the rough roads encountered in some places.

For the past several winters Col. Solliday has been an annual visitor to Daytona, but has always made the trip by rail. He says he has come to the conclusion that the pleasure of a winter here is greatly enhanced by having a car and for that reason drove through this year. He is an enthusiastic member of the Milwaukee Automobile Association and has a natural fondness for automobiles. He averaged about 130 miles a day, doing no traveling at night.

The weather was good when Col. Solliday and his companion left Watertown and they stopped for a couple of days in the Windy City. Leaving Chicago they encountered a heavy rain storm and were compelled to stop after making 95 miles the first day. From Chicago they motored to Indianapolis, where another day was spent in sight seeing, and from the Indiana city they went to Louisville and Bowling Green, Ky. At Bowling Green they went ten miles out of their way to visit Mammoth cave and Cave City and from there to Nashville, where they visited The Hermitage, the former home of Andrew Jackson, and the Confederate Soldiers' Home.

Leaving Nashville they journeyed to Chattanooga and from that place to Atlanta, where they spent another day looking over the Georgia capital. From Atlanta the route chosen was by way of Macon and Valdosta to Lake City, Fla., and Jacksonville. The roads from Valdosta to Lake City were very sandy and the worst encountered on the trip. In Kentucky in the vicinity of Bowling Green the roads were found to be very rocky. The roads through the greater part of Georgia were especially fine and Col. Solliday was very well pleased with the manner in which his car behaved on the trip.

Col. Solliday was a soldier in the Civil war and also in the Spanish-American war and relates some interesting incidents of his life as a soldier. He is a popular man among the national guardsmen of the Badger state and is well known throughout the state.

It is probable Col. Solliday will make the return trip to Wisconsin in the spring with his car.

HEAVY TRESPASS FINE;
NEGRO STARTS FIRE.

ST. AUGUSTINE, Dec. 1—Eugene Miller, a negro, was brought in from Hastings Monday by Deputy Green and was assessed \$50 and costs, or the alternative of 90 days at hard labor for the county on being convicted of trespass. The negro entered a box car on the Florida East Coast railway at Hastings and lighted a fire therein, then fell asleep and left the fire burning. The car was partly loaded with wood and the wood and the flames spread to the inflammable pine and threatened to destroy the car. Deputy Green saw the glow of the fire and went to investigate. He found the negro asleep behind a pile of wood and in danger of being burned to death. The man's clothing had caught when Mr. Green hauled him out. The car was saved by a narrow margin. The court imposed a heavy sentence with a view of discouraging the practice of trespassing on freight cars.

TO TELL ALL
ADVANTAGES
OF DAYTONA.

PLAN TO ADVERTISE CITY;
REPRESENTATIVE AT WORK.

BUSINESS INTERESTS COMBINE
TO TELL OUTSIDERS OF THE
ADVANTAGES OF THIS BEAUTI-
FUL WINTER RESORT.

W. Lane Dilg, representing the Dorland Advertising agency, of New York, Atlantic City and London, is in the city in the interests of his concern, pushing a plan to advertise the advantages of Daytona as the best winter resort in the United States.

All business men are asked to co-operate in this plan to push Daytona as a popular winter resort city with the idea of making the city a household word throughout the length and breadth of the land. The advantages and beauties of the city will be well prepared by the advertising agency and the advertising will be done in newspapers and magazines, the way which will best suit the combined business men and where it will show the best returns.

The plan is a good one for the local business men, who might be worried at this time against the numerous fake advertising schemes, which are so often sprung in this country. Every year when the snows begin to fall in the north a certain class of "live easy" individuals turn their faces southward, living by their wits and by every scheme imaginable, concocted by fertile brains. Every scheme is resorted to that they may live easy at the expense of others, and, strange to say, many business men who have reputations for far-sightedness fall into their traps.

One of the most frequently worked, and one which usually meets with success is some sort of a directory, hotel, barbershop, depot, telephone, or something of that character, where a dollar or two is asked for space, promising many thousand copies to be distributed all over the face of the earth, while in reality only a few hundred copies are even printed and in many cases the schemers decamp with the money without even making an attempt to complete their terms of the agreement. In many of the larger cities the merchants have an agreement to decline any form of advertising unless the solicitor bears a card from the board of trade permitting him to solicit in the city. This, of course, does not apply to home companies or home papers, but puts a censor on all kinds of fakes and saves the merchants much worry.

MANY PYTHIANS AT ORLANDO
ATTEND DISTRICT MEETING.

MEMBERS ENJOY GATHERING
AND SOCIAL TIME HELD IN
CONNECTION WITH CONVEN-
TION.

ORLANDO, Fla., Dec. 1—Last week Friday was a red letter day for the members of the order of Knights of Pythias in this city and this district of the grand domain of Florida. Not since the grand lodge meeting held in this city has there been such a gathering of Pythians as came to attend the district meeting.

Delegates were present from nearly every lodge in the district, although none registered from Fountain City lodge at Daytona. District Deputy Grand Chancellor Newton P. Yowell had worked untiringly to make the gathering an interesting one and his efforts were crowned with success.

Among the prominent members of the order in attendance was Grand Chancellor H. H. Richardson, of the grand domain of Florida, who was received in the convention with grand lodge honors and gave a pleasing talk on the work of Pythianism in the State. The address of welcome was delivered by W. P. Watson, of this city, and was responded to by Geo. H. Feinwald, of Sanford.

Work was conducted by the local lodge in the third rank, after which the members listened to reports from the various lodges in the district and enjoyed a social session.

At the last regular meeting of Fountain City lodge, Knights of Pythias, officers for the ensuing year were nominated and at the regular meeting next Monday evening the officers will be elected. The installation will take place in January.

firm of Edmondson & Donnelly, went
over to Beresford Saturday morning,
returning later in the day with his
touring car, a Studebaker, which he
had shipped to that point. Mr. Don-
nelly made the return trip in an
hour and five minutes, though he
found the road in rather poor con-
dition and he had rain all the way. Mr.
Donnelly is having a large stable
built on his Second avenue property
for the housing of his horses and
automobiles. Contractor Jacob Es-
pedahl is in charge.

HOUSE ON; FIRST SHOW TOMORROW.

NEW OPERA HOUSE READY;
ARMORY REMODELLED.

REMODELLED ARMORY NOW IN
FIRST CLASS SHAPE TO AC-
COMMODATE THEATRE PRODU-
CTIONS.

The most interesting announcement
of the current theatrical season is
the opening of the New Daytona
Theater tomorrow night, when the
first show will be presented to the
public. The opening of the new
playhouse fills a long felt want in
Daytona.

The house has been newly and
completely equipped throughout.
New and comfortable chairs will af-
ford ample seating capacity and the
entrances and exits are ample so
that a crowd that would fill the
house to its capacity can be handled
without inconvenience. The stage
has been completely equipped with
new scenery and modern stage ap-
pliances and the largest road at-
tractions can be staged, quickly, cor-
rectly and in a manner worthy of
the larger theaters.

The scenery and drop curtain were
built and painted by F. H. Imme
and A. Jones, and they are to be
congratulated on their taste and ex-
ecution. Managers Sneed and Mor-
ris have been fortunate in secur-
ing the Peruchi-Gypzene Company to
open the new theater, for the com-
pany is widely known throughout
the State and noted for excellent
clean and clever performances. The
company will be seen Friday and
Saturday nights and at the Sat-
urday matinee in this excellent play-
house.

The announcement of the pro-
gram to be presented by the Peruchi-
Gypzene Company is interesting as
the plays will be thoroughly enjoy-
ed by all who see them.

The Peruchi-Gypzene Compa-
ny needs no introduction to the peo-
ple of the south and their past rec-
ord is a sufficient guarantee of the
excellence of their productions. Mr.
Peruchi has surrounded himself with
Miss Gypzene with a company of
ladies and gentlemen of wide expe-
rience and every part will be in
capable hands. The plays selected for
the engagement are all the best of
the kind and rank among the first of
the modern drama.

Friday night, December 2, "The
House of Love" will be presented.
This is an excellent society comedy
drama and the beautiful love story
that runs through the play provides
many strong and dramatic situations.
On the other hand it bubbles over
with bright, sparkling comedy. "The
House of Love" is a play that de-
vates, entertains and never fails to
please. One leaves the theater feel-
ing brighter and better for having
seen it.

Saturday night the attraction will
be "A Woman of the Hour." From
a standpoint of variety, comedy and
dramatic action this excellent com-
edy drama ranks among the best.
The simple, yet beautiful story, cap-
tivates the attention of the audience
at once and holds it throughout the
play.

The play to be presented at the
Saturday matinee is considered one
of the gems of dramatic literature.
"A Game of Hearts" is a comedy
drama that is decidedly more clever
than the average. It is especially
popular with the matinee audience.
Special mechanical and electrical
effects are carried for each perfor-
mance and when the curtain rises on
Friday night the audience will see
the most beautiful and complete
scenic effect ever presented in the
city.

C. A. Ballough, of Holly Hill, has
purchased through the County Com-
missioners agency the Fred Aldridge

EARLY SETTLER OF DAYTONA

DIES AT SPRINGFIELD, ILL.

Archibald Reid died at 2:10 o'clock
Sunday morning, October 30, 1916,
at the residence of his daughter, Mrs.
Will A. Worthington, 1491 N. Third
street, Springfield, Ill., of a compli-
cation of diseases. Mr. Reid was
aged 77 years. The service was
held Nov. 1, 1916, at the residence
of his daughter, Mrs. Ella M. Wor-
thington, Rev. James Stevenson, of
the G. A. R., officiating. Interment
was made in Oak Ridge cemetery.
The service at the grave was in
charge of Stevenson Post, No. 38,
G. A. R., and Sangamon Lodge, No.
5, I. O. O. F.

Mr. Reid was born near Edin-
burgh, Scotland, and has resided in
Springfield for the last fifty years.
He was one of Daytona's first set-
tlers, living here for about five
years. He was a member of the
One Hundred and Twenty-third In-
fantry. Mr. Reid had many friends
in Daytona, and was well liked by
all who knew him. He had been in
poor health for some time. Deceased
is survived by his wife, Mrs. Har-
riett Reid, one daughter, Mrs. Ella
M. Worthington, one brother, An-
drew Reid, and two grandchildren, all
of Springfield, Ill.

And look over our supply of the
season's newest styles in men's
